Ashwinkumar Savaj

Digital Integration & Process Automation

Hands-On experience on – Java8, Spring Boot, Restful Web Services, Spring Security, OAuth 2.0, Microservices, Spring Cloud, Hibernate, JPA, HATEOAS, Eureka, Netflix OSS, Docker, Kubernetes, Jenkins, Azure DevOps, Junit, Mockito, Jenkins, HTML, CSS, REDIS etc.

Spring Boot	Microservices
Java	Mockito
Azure DevOps	Spring Security
REST	Hibernate
Spring Cloud	JPA
Netflix OSS	OAuth 2.0
Eureka	Feign Client
Junit	Java8
Maven	MySQL
REDIS	Zuul
HATEOAS	Docker
Kubernetes Basic	MongoDB

Roles

Software Engineer | Digital Integration & Process Automation

Jan 2019 - currently working

Coding & Development, Requirement Gathering & Analysis, Unit Testing, Deployment, Support & Enhancements, Production Support, Sprint Planning & on-time release of sprint deliverables, Azure DevOps support - Managing & handling build & release pipelines, Achieving maximum code coverage, Minimizing sonar violations & bugs, Integrating with third party products / software (REST/SOAP), Mentoring new comers, Managing Microservices based functionality, Following Agile Methodology.

- -

Order My Food - Orchard Kalinga | Mindtree Ltd | Jan 2019- Apr 2020

• Requirement gathering, analysis and implementation • Responsible for on-time delivery of Sprint Deliverables. • Developing and delivering the end-to-end working functionality. • Responsible for successfully deployment.

• Assuring – - maximum code coverage with Junit, Mockito - code quality as per SonarQube

quality gates - minute number of bugs
• Maintaining good team spirit and collaboration with team and helping others. • Followed Agile based SCRUM methodology.

Web Application

Dubai Holding - Jumeirah.com | Mindtree Ltd | Apr 2019- Apr 2020

Coding & Development, Requirement Gathering & Analysis, Unit Testing, Deployment, Support & Enhancements, Production Support, Sprint Planning & on-time release of sprint deliverables, Azure DevOps support - Managing & handling build & release pipelines, Achieving maximum code coverage, Minimizing sonar violations & bugs, Integrating with third party products / software (REST/SOAP), Mentoring new comers, Sharing daily updates with customer, Keeping up the team spirit & active team collaborations
